Civil Design Engineer

Pickering Associates has an opening for a Civil Design Engineer. The ideal candidate will have a few years of design experience, excellent communication skills and a proficiency with Autodesk Civil 3D. The successful candidate will join a team of other professionals servicing a diverse base of clients throughout WV, OH and beyond. This is a full-time position located at our Parkersburg, WV office.

General responsibilities include but are not limited to the following:

- Perform all aspects of civil engineering design including civil site design (layout, grading, utilities, etc.); engineering analysis; prepare design concepts; calculations and specifications; conduct site investigations and visits; write reports and proposals.
- Attend meetings with clients and contractors.
- Work with a multi-discipline team of architects, engineers, interior designers, and surveyors.
- Participate in team meetings and coordinating efforts with other team members.
- Develop discipline specifications for review by the Senior Engineer.
- Coordinate work product with other disciplines.
- Adhere to project budget and schedule.
- Prepare accurate, complete, and code-compliant drawings and specifications for schematic, design development, and construction document submittals.
- Other duties as assigned.

Qualifications:

- Bachelor's degree in Civil engineering from a school that is accredited by ABET.
- 2+ years of experience in Civil Engineering, with an emphasis on design.
- Proficient familiarity with Autodesk Civil 3D and AutoCAD.
- Organized, excellent written and verbal communication skills, attention to detail, good attendance, and sound problem-solving skills.
